

A Taylor Company

SUSTAINABILITY POLICY

Vectra Visual has an unwavering dedication to the environment, each other, and our community. As stewards of the future we will continually seek out and adopt business processes, technologies, and materials that are consistent with safeguarding the ecology of our surroundings. We are firmly committed to the quality of life of our employees, customers, and community. Through innovation, process improvement, and sound manufacturing practices we will encourage and promote sustainability in every area of our business operations. To that end we as an organization will....

- Comply with or exceed all legislative, regulatory and procedural practices.
- Meet or exceed environmental, health, and safety regulations.
- Aggressively pursue new initiatives to reduce, re-use, and recycle products and compounds in every aspect of our manufacturing process and consumables.
- Involve all our employees through active engagement in sustainability and environmental practices.
- Actively inform our clients regarding our sustainable practices and encourage adoption of these principles through leadership and example.
- Seek collaboration in our sustainability efforts through negotiation of sustainable products and processes from our vendors and suppliers.
- Evaluate every component of our manufacturing and business practices for continual improvement in sustainable principles and practices.
